

SPOT RANGE

SPOT PRO 100

Floor and walls

Pool length: up to 25m
Cable length: 30 m
Weight out/in water: 9 kg/2kg
Remote control: with
Trolley : with
Power supply: 110 v-240 v / 24 vdc

SPOT PRO 150 XD

Floor and walls on battery

Pool length: up to 20m
Cable length: with battery
Weight out/in water: 9 kg/2kg (without battery)
Remote control: with
Trolley : with
Power supply: 12 Volts 3 h (autonomy) / 6 h (charge)

Cleaner width: 40 cm - Cleaning speed: 10 to 15 m/min - Suction power: 27m³/h - Filtration capacity: 3,1 kg - Brush type: PVC, option PVA

AQUA

POSITIONING
TECHNOLOGY

SPOT 100 by Hexagone Manufacture is a fully automated professional pool robot vacuum cleaner powered by battery or mains which calculates the trajectory in accordance with its intelligent program Aqua Positioning Technology.

SECURITY

Fully integrated gyroscopic and infrared sensors provide automatic cleaning without any moving parts for control functions. If obstacles are detected, SPOT automatically avoids them.

TECHNOLOGY

This robotic cleaner **SPOT** incorporates a submersible electric pump with a high-strength steel rotor and 2 high-strength filter bags **for reliable and secure cleaning**, which is not interrupted by the larger particles commonly found in commercial pools.

INTELLIGENCE

The new design of gyro + sensor combined with **technologie «Aqua Positioning»** allows fully automatic cleaning without moving parts for control functions.

USE

This robotic cleaner is equipped with a **radio remote control for manual and / or automatic cleaning** and to allow easy access to hard-to-reach areas during a spot cleaning.
