Commercial swimming pool cleaning solution

3 in 1

Filtration + extraction
+ recovery

EXTRA CAPACITY TOP 1

Extra TOP 1 filter attached to the top of the robot is a second external filter with a large capacity. If your robot has a 250 micron bag, add the TOP 1 with a fineness of 105 microns extra.

Pleated filter cartridge

EXTRA CAPACITY TOP 2

Extra Filter Cartridge Top 2 is located outside the pool. You add an outside pipe to the robot pump. The hose leads the pool water through a booster pump directly to the System Filter Cartridge. Once filtered, the water can be reused.

EXTRA CAPACITY TOP 3

An extra large bag TOP 3 is in outside the pool. You add a pipe additional to the robot pump. The pipe leads the water to the external pump, the water passes through a filter system including 4 specific bags. Once filtered, the water can be reused.

Commissioning and Training included

POOL CLEANER EXTRA SYSTEME FILTRATION

You have a pool that needs extreme cleaning due to various conditions. Getting pool ready after the winter, large quantities of algae, leaves from surrounding trees, sand from beach volley... the Extra system is your unique solution!

We have increased our filtration cleaning capacity and our Extra system is able to collect up to 30kg of sand per cleaning !

How does it work?

Depending on your type of debris, we can add different types of filtration system to our pump system.

The warranty is 2 years parts and labour. (Excluding consumables).

You have the choice between 3 solutions:

Extra capacity TOP 1

Available in 20, 75, 105, 250, 1000 or 2000 microns bag.

Extra capacity TOP 2

Perfect for bio pools! The Quick Vac' Filter system vacuums up sand, algae...in its own cartridge filter. 3 types of filter cartridge*
*Delivered with 25m hose.
Option 50m hose.
Power of an outdoor pump: 700 W.

Extra capacity TOP 3

With our specific 4 filters bag, you can choose the mesh of 20, 75, 105, 250, 1000 or 2000 microns bag. Delivered with 5m hose. Other lengths of hose, please consult us.
Power of an outdoor pump: 700 W.
