Commercial pool fitness solution

Aqua fitness Training!

AUDIO SYSTEM

First audio system specially designed for swimming pools, powered by battery, equipped with a Bluetooth connection. The sound quality and long battery life make it the best choice to accompany your activities:

- **Hexa Sono Optima:** PVC construction. Connectors: Bluetooth, AUX-In: 1, auxiliary input: 1, microphone, USB, SD card reader: 1. Light and handy with 4 wheels.

- **Subaquatic loudspeaker:** ideal for accompanying nautical activities such as synchronized swimming.

The submersible omnidirectional diffuser allows users, to listen to music and to hear the voice of the instructor under the water. The waterproof acoustic transducer (IP 68) allows reliable operation in water.

- **Aerobic Kit Plus:** for the aqua gym instructor. Great autonomy.

Buttons for adjustments

(Delivered without hand microphone)
