Commercial swimming pool cleaning solution

AUTOMATIC POOL CLEANER

“The real professional scrub robotic poolcleaner, 14kg of power”.

The pool bottom cleaner Peps is the state of art of development from Hexagone for cleaning your pool. Hexagone is the leader in pool cleaners for the public swimming pools sector: The pool bottom cleaner peps is the new entry to semi public market such as hotels, camp sites, schools, condos, health clubs and high demand private customers.

• The 3 main reasons to choose the Peps:

1/ Construction

Class-executive high-strength, stainless steel frame. The design is reliable and easy to maintain. It will withstand daily use by multiple staff.

2/ Performance

The pool bottom cleaner Peps is extremely powerful with a professional pump of 37m³/h and the largest cleaning capacity on the market (filter can hold up to 6 kg of sand). It has Hexagone revolutionary fast rotating brushes Stiff Bristle and super power suction.

This makes it the ideal partner for any swimming pool.

3/ Smart

Equipped with a gyroscopic controller and an infra-red eye, its self learn automatic mode makes the pool bottom cleaner Peps extremely fast and active completing a cycle on a 15m x 10m pool in less than 25 minutes. Using the pool bottom cleaner a Peps is therefore both easy and efficient. Each pool bottom cleaner Peps ordered comes complete with transportation trolley and remote control.
